

## ANALYTICA CHIMICA ACTA, VOL. 226 (1989)

## AUTHOR INDEX

- Abe, S.  
— and Endo, M.  
Simultaneous determination of trace iron(II) and iron(III) based on kinetic spectrophotometry of the iron(III)-pyrocatechol violet complex in a micellar medium 137
- Adams, F., see Adriaens, A. 43
- Adriaens, A.  
—, van Epen, P. and Adams, F.  
Study of sulphur poisoning in nickel catalysts by electron probe microanalysis 43
- Alder, J.F., see McEntee, J. 145
- Arhunmwunde, S.O.  
— and von Wandruszka, R.  
Effects of concentration and temperature on faradaic transients 337
- Bergamin F<sup>o</sup>, H. see Zagatto, E.A.G. 129
- Blanco, M.  
—, Coello, J., González, F., Iturriaga, H. and Mastrapoch, S.  
Simultaneous determination of metal ions. Spectrophotometric determination of binary, ternary and quaternary mixtures of aluminium, iron, copper, titanium and nickel by extraction with 8-hydroxyquinaline 271
- Blum, L.J.  
—, Gautier, S.M. and Coulet, P.R.  
Continuous-flow bioluminescent assay of NADH using a fibre-optic sensor 331
- Bos, M., see van Nugteren-Osinga, I.C. 171
- Brand, U.  
—, Schepel, T. and Schügerl, K.  
Penicillin G sensor based on penicillin amidase coupled to a field effect transistor 87
- Chen, D.  
—, Lázaro, F., Luque de Castro, M.D. and Valcárcel, M.  
Direct spectrophotometric determination of total boron in soils with ultrasonic leaching in automatic flow systems 221
- Coello, J., see Blanco, M. 271
- Cook, R.L.,  
—, Macduff, R.C. and Sammells, A.F.  
Reversible detection of sulfur dioxide by using a multiple reflecting optical waveguide sensor 153
- Coulet, P.R., see Blum, L.J. 331
- Cyfert, M., see Wilgocki, M. 351
- Dama, R., see Hu, W.-D. 193
- Dasgupta, P.K.  
— and Lei, W.  
Solvent extraction in continuous flow systems with intelligent zone sampling 255
- Dasgupta, P.K., see Lei, W. 165
- Deiana, S.  
—, Gessa, C., Solinas, V., Piu, P. and Seiber, R.  
Analytical study of the interactions of D-galacturonic acid with iron(III) and iron(II) in solution and with iron(III)-bentonite 315
- Denis, M.  
—, Minon, G. and Masschelein, W.J.  
Continuous determination of residual chlorite in water 121
- Dos Santos, M., see Turner, D.R. 229, 239
- Egsgaard, H.  
—, Larsen, E. and Jensen, E.S.  
Evaluation of automated determination of nitrogen-15 by on-line combustion 345
- El-Hag, I.H.  
— and Jano, I.  
Study of the excited states of HPO and its emission spectrum in hydrogen-based flames 305
- Endo, M., see Abe, S. 137
- Gautier, S.M., see Blum, L.J. 331
- Gessa, C., see Deiana, S. 315
- Gomiček, S., see Grgić, I. 203
- Gonçalves, M.L., see Turner, D.R. 229, 239
- González, F., see Blanco, M. 271
- Green, J.D.  
— and Payne, B.P.

- Reproducibility of simultaneous distillation-extraction techniques used in the isolation of volatiles 183
- Grgić, I.  
—, Hudnik, V. and Gomiček, S.  
Behaviour of mercury complexes in a graphite tube furnace for atomic absorption spectrometry 203
- Hu, W.-D.  
—, Vandecasteele, C., Wauters, G. and Dams, R.  
Volatilization of gallium trichloride for the determination of trace elements in a gallium matrix using electrothermal atomization atomic absorption spectrometry 193
- Hudnik, V., see Grgić, I. 203
- Iturriaga, H., see Blanco, M. 271
- Jackwerth, E., see Würfels, M. 1, 17, 31
- Jano, I., see El-Hag, I.H. 305
- Jensen, E.S., see Egsgaard, H. 345
- Kihara, S., see Ozaki, T. 187
- Knittel, D.  
—, Schollmeyer, E. and Schlue, W.-R.  
Microelectrodes as sensors in basic research on textile materials 247
- Knox, S., see Turner, D.R. 229, 239
- Kolmonpunporn, M., see Tan, H.S.I. 159
- Kurihara, M., see Toyo'oka, T. 109
- Larsen, E., see Egsgaard, H. 345
- Lázaro, F., see Chen, D. 221
- Lei, W., see Dasgupta, P.K. 255
- Lei, W.  
— and Dasgupta, P.K.  
Determination of sulfide and mercaptans in caustic scrubbing liquor 165
- Li, H.  
— and Wang, J.-X.  
Determination of stability constants of complex systems by a linear plot method 323
- Łobiąński, R.  
— and Marczenko, Z.  
Sensitive flotation-spectrophotometric determination of niobium with use of ox-
- alate, 3,5-dinitrocatechol and Rhodamine B 281
- Luque de Castro, M.D., see Chen, D. 221
- Macduff, R.C., see Cook, R.L. 153
- Maessen, F.J.M.J., see Scheeren, P.J.H. 53, 73
- Marczenko, Z., see Łobiąński, R. 281
- MasPOCH, S., see Blanco, M. 271
- Masschelein, W.J., see Denis, M. 121
- Matsui, M., see Ozaki, T. 187
- McEntee, J.  
—, Thomas, C.L.P. and Alder, J.F.  
Evaluation of the adsorption characteristics of 1,1,1-trichloroethane within a platinum/lead-based denuder tube assembly 145
- Minon, G., see Denis, M. 121
- Miyata, N., see Toyo'oka, T. 109
- Miyazaki, S., see Ozaki, T. 187
- Okudaira, K., see Toyo'oka, T. 109
- Ozaki, T.  
—, Miyazaki, S., Umetani, S., Kihara, S. and Matsui, M.  
Solvent extraction of zinc with 1-(2'-chlorophenyl)-3-methyl-4-aryl-5-pyrazolones 187
- Patterson, J.E.  
Gas chromatographic detector based on enhancement of mercury 253.7-nm photoacoustic signals by hydrocarbons in a hydrogen carrier 99
- Payne, B.P., see Green, J.D. 183
- Pescada, C., see Turner, D.R. 229, 239
- Piu, P., see Deina, S. 315
- Przyjazny, A.  
— and Staszewski, R.  
Evaluation of Polichrom A for preconcentration of volatile organic compounds from the atmosphere 213
- Reis, B.F., see Zagatto, E.A.G. 129
- Ristić-Šolajić, M., see Talsky, G. 293
- Saito, Y., see Toyo'oka, T. 109
- Sammells, A.F., see Cook, R.L. 153
- Scheeren, P.J.H.  
—, Seeverens, P.J.H., Maessen, F.J.M.J. and Smit, H.C.

- Signal analysis and data processing for inductively coupled plasma-atomic emission spectrometry with microlitre sample introduction. Part 1. Introduction, signal and noise characteristics 53
- Scheeren, P.J.H.
- , Seeverens, P.J.H., Maessen, F.J.M.J. and Smit, H.C.
- Signal analysis and data processing for inductively coupled plasma-atomic emission spectrometry with microlitre sample introduction. Part 2. Calibration curves and signal estimation 73
- Scheper, T., see Brand, U. 87
- Schlue, W.-R., see Knittel, D. 247
- Schollmeyer, E., see Knittel, D. 247
- Schügerl, K., see Brand, U. 87
- Seeber, R., see Deiana, S. 315
- Seeverens, P.J.H., see Schoeren, P.J.H., 53, 73
- Šimčková-Štajerová, B. see Vytras, K. 177
- Smit, H.C., see Scheeren, P.J.H. 53, 73
- Solinis, V., see Deiana, S. 315
- Staszewski, R., see Przyjazny, A. 213
- Stoeppeler, M., see Würfels, M. 1, 17, 31
- Suzuki, T., see Toyo'oka, T. 109
- Takahashi, A., see Toyo'oka, T. 109
- Talsky, G.
- and Ristić-Šolajić, M.
- Higher-order derivative reflectance spectrophotometry of synthetic organic pigments in artists' paints 293
- Tan, H.S.I.
- and Kolmonpunporn, M.
- Second-derivative spectrophotometric determination of mixtures of phenylpropanolamine hydrochloride and dextromethorphan hydrobromide in some pharmaceutical preparations 159
- Thomas, C.L.P., see McEntee, J. 145
- Toyo'oka, T.
- , Okudaira, K., Kurihara, M., Miyata, N., Takahashi, A., Suzuki, T. and Saito, Y. Determination of *N*-acetyl-*S*-carbethoxy-cysteine in rat and mouse urine by liquid chromatography with fluorescence detection 109
- Turner, D.R.
- , Knox, S., Whitfield, M., Dos Santos, M., Pescada, C. and Gonçalves, M.L.
- An integrated gradient chamber and potentiometric detector for flow injection analysis. Part 1. Assessment of the system 229
- Turner, D.R.
- , Knox, S., Whitfield, M., Dos Santos, M., Pescada, C. and Gonçalves, M.L.
- An integrated gradient chamber and potentiometric detector for flow injection analysis. Part 2. Measurement of acidity constants of weak acids 239
- Umetani, S., see Ozaki, T. 187
- Valcárcel, M., see Chen, D. 221
- Vandecasteele, C., see Hu, W.-D. 193
- Van der Linden, W.E., see van Nugteren-Osinga, I.C. 171
- Van Espen, P., see Adriaens, A. 43
- Van Nugteren-Osinga, I.C.
- , Bos, M. and van der Linden, W.E.
- Hollow-fibre membrane for sample introduction in a flow-injection system. Determination of carbon disulphide in air 171
- Von Wandruszka, R., see Arhunmwunde, S.O. 337
- Vytras, K.
- and Šimčková-Štajerová, B.
- Potentiometric ion-pair formation titrations of bisquaternary cations: determination of diquat and paraquat 177
- Wang, J.-X., see Li, H. 323
- Wauters, G., see Hu, W.-D. 193
- Whitfield, M., see Turner, D.R. 229, 239
- Wilgocki, M.
- and Cyfert, M.
- Polarographic determination of lead(II) in the presence of thallium(I) and cadmium(II) using complexation with ethanediamine and hydroxyl ion 351
- Würfels, M.
- , Jackwerth, E. and Stoeppeler, M.
- Residues from biological materials after pressure decomposition with nitric acid. Part 1. Carbon conversion during sample decomposition 1
- Würfels, M.
- , Jackwerth, E. and Stoeppeler, M.
- Residues from biological materials after pressure decomposition with nitric acid.

- Part 2. Identification of the reaction products 17  
Würfels, M.  
—, Jackwerth, E. and Stoeppler, M.  
Residues from biological materials after pressure decomposition with nitric acid.  
Part 3. Influence of reaction products on inverse voltammetric element determination 31  
Zagatto, E.A.G.  
—, Reis, B.F. and Bergamin F<sup>o</sup>, H.  
The concept of volumetric fraction in flow-injection analysis 129
